in the following categories:

DuoLife Keratin Hair Complex

health and beauty all in one

DuoLife Keratin Hair Complex is a dietary supplement in liquid form based on keratin, containing natural ingredients of plant origin.

- 34%** Your hair loss reduced by 34% already after 1 month of use*
- 86%** Significant reduction in hair loss. 86% after full treatment*
- 10x / 2x** Your hair 10x stronger and 2x more elastic than before the therapy*
- XXL** A significant improvement of volume and density. XXL for thin hair*
- 3** Results visible after 3 months of use.

Comprehensive effect in 3 steps

Step 1 Keratin Hair Complex helps hair grow

Extract of black rice and fig prickly oil stimulate the hair growth by induction for multiplication of papillary cells found in hair follicles. The result is the so-called „baby hair“.

Step 2 Keratin Hair Complex inhibits hair loss

The unique composition of ingredients has been selected to optimize the process of hair stimulation and reconstruction. All the ingredients used are complementary to each other, creating a liquid Keratin Hair Nutritional Therapy. The preparation prevents excessive hair loss.

Step 3 Keratin Hair Complex adds density and volume to the hair

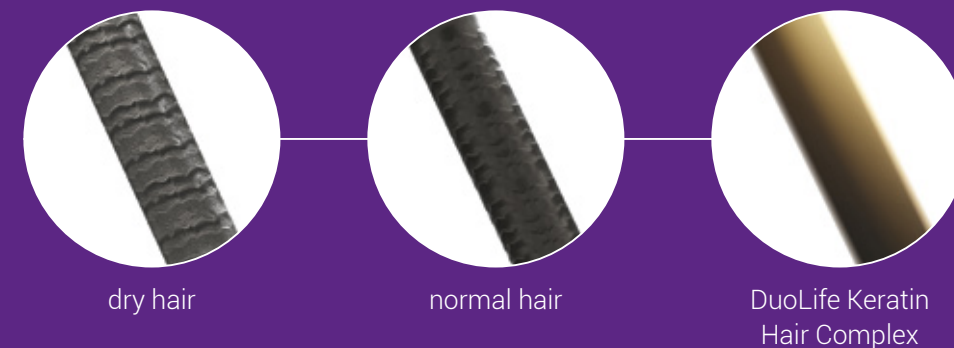

Keratin Hair Complex contains amla fruits which are an important source of vitamin C. Vitamin C deficiency contributes to the deterioration of functioning of the scalp, which makes the process of forming the hair shaft disturbed and a problem with hair loss occurs. Included in the product grape seed extract, affects nutrition and stimulation of hair bulbs. These ingredients determine the improved structure of the hair and the sealing of its protective layer.

DuoLife Keratin Hair Complex contains 100% natural ingredients

guava purée		solubilized keratin
amla fruit extract		grape seed extract
organic pea sprout extract		nettle leaf extract
black rice and Opuntia ficus-indica flower extract		field horsetail extract
		raspberry fruit juice

The raw materials used in the formulation process have proven effectiveness when taken orally. The product is intended for women and men.

Hair appearance and structure

Net volume: 750 ml / 26,4 fl oz

Directions for use: 25ml to 50ml once a day before meals.

*Research carried out on a group of 21 people. Verification of the product potency is checked every 2 weeks of use. Test carried out in a research laboratory.
